

MEMO

To Customer Development Manager,
DUYS Vehicle Safety Solutions
Chris Bosman

From Head of Engineering Standards & Governance

Date 12/07/2012

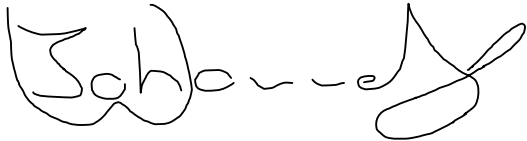

Subject Approval of Halo ROPS

Dear Sir/Madam

I would like to confirm that AngloAmerican approves the design, construction and the usage of the Halo Roll Over Protection Structure in our operations. It must be noted that AngloAmerican sites will thus use the part number furnish by DUYS to order the units with confidence that the manufacturing, installation and certification will be of the quality that meets the approved design specification AAC 264073. In addition, any modifications which are done on the ROPS for retrofitting the structure on a vehicle which is not specified in the product report "Performance Testing Information Report for HALO™", such modifications must be indicated on the as installed drawings which a copy shall be left on site.

Hope you find all in order and any enquiries can be redirected to us.

Yours sincerely

Johann Wannenburg
