**Transport and Main Roads**

Ms Susie Bozzini  
C/- Star Automotive Accessories and  
Safety Engineering International  
21 Stebbing Road  
Maddington WA 6109

Dear Ms Bozzini

**Re: Fitment of a Halo system to a vehicle**

Thank you for your application dated 9 March 2011 in which you requested approval to fit a Halo system to a vehicle.

The Department of Transport and Main Roads (the department) has assessed your application and considers the Halo system a vehicle accessory. The fitting and use of vehicle accessories does not require specific approval from the department. As such, the department does not approve or disapprove of vehicle accessories and no written authority is necessary to enable you to proceed with the fitting of these light assemblies to motor vehicles.

You are further advised that this is not an approval or endorsement of this product and its usage. However, the department regularly evaluates accessory products in relation to motor vehicles and offers comment or advice of concerns in relation to any legislative impediments that may be evident.

For the Halo system to be considered as an accessory and therefore able to be fitted to a motor vehicle without approval, the following conditions apply:

- The fitment of this product must not effect the vehicle's compliance to the Australian Design Rules.
- Seatbelt anchorage points must not be altered unless approved under the relevant modification codes.
- The vehicle Supplemental Restraint System must not be affected in any way.

**PLEASE NOTE:**

Under the *Transport Operations (Road Use Management - Vehicle Standards and Safety) Regulation 2010*, the owner of a modified vehicle must ensure the modification has been approved before the vehicle is used on a road.

Modifying a vehicle that adversely affects its safety, or driving or parking an unsafe vehicle on a road are breaches of the *Transport Operations (Road Use Management - Vehicle Standards and Safety) Regulation 2010*.

If you require further information, please call Moises Vasquez from the Modifications Help Desk on 3114 5844.

Yours sincerely

Michael Ross
